Aplicación / Application

Nuestras creaciones vinílicas aportan nuevas soluciones para reducir significativamente los tiempos de ejecución y los costes, así como el mantenimiento futuro, tanto en obra nueva y rehabilitaciones como en pequeñas reformas. Ofrecen revestimientos innovadores, de fácil aplicación e inoocuos para interior y exterior. Aprovechan los elementos efímeros y estructurales existentes (como paredes, azulejos, muebles, puertas, etc.), revistiéndolos con materiales ligeros para darles una segunda vida alineada con las tendencias más actuales.

Our vinyl creations provide new solutions that significantly reduce execution times and costs, as well as future maintenance, both in new construction and renovations, as well as in small refurbishments. They offer innovative, easy-to-apply, and harmless coverings suitable for both indoor and outdoor use. They make use of existing temporary and structural elements (such as walls, tiles, furniture, doors, etc.), covering them with lightweight materials to give them a second life in line with the latest trends.
